

HAZCAT® INDUSTRIAL CHEMICAL UNKNOWNNS KTC2002 AGENCY ON THE JOB TRAINING KIT

KTC2002

This kit provides “unknown substances” for continuing education for First Response Teams.

A unique kit, that allows your agency, to assign one of (26) unknowns along with the flow chart, to your first response team member. This assignment gives the team member a hands-on lesson in an “unknown” identification. Once completed, the supervisor can file the completed and graded chart in the team members training file for training validation. This kit includes: 26 Surrogates...Field Manual with MSDS's... and Field Sheets packet in a high impact plastic case with foam insert.
